

Instructions for use

Wall & Ceiling Fixtures WA-VCT31A

Please read these instructions carefully before use. Keep these instructions in a safe place for quick and easy reference whenever necessary.

SAFETY FIRST

To avoid injury to yourself or other people, and to avoid damage to property, please keep safety requirements in mind at all times.

◆ CAUTION

1. Be careful when handling the metal brackets as sharp edges could cause injury.
2. Do not hang from or stand on the brackets. They are not intended for this purpose and injury could occur.
3. When cleaning, do not use benzene, alcohol, paint thinner or similar substances as they could cause damage to paint or other surfaces.
4. Keep packaging and wrapping, etc. away from children. These materials are not toys and injury or suffocation could result from improper use.

DANGER

1. Only skilled and experienced staff should be allowed to perform installation, repair work and maintenance checks, as there is the risk of fire, electric shock, damage to equipment and other accidents or injuries.
2. Do not install in locations that are subject to rust and corrosion from salt or gases, as the fixtures may be weakened and eventually fall.
3. Under no circumstances are you to exceed the maximum load indicated for these fixture brackets.
4. Ensure all screws and other parts are firmly secured.
5. Check that the fixture is installed on a stable surface. Avoid installation on weak ceilings or walls, etc.
6. Check the setup periodically. Screws and other parts may weaken over time and cause accidents, etc.
